Classroom management leadership & Action Research

Activity-1

P.NO: 1 II Sem

1. prepare a detailed record describing the role of teacher in organising the classroom at least by observing a teacher for five periods.

Introduction:-

We have to know about the teacher role in various activity in the classroom management.

I came to know about teacher, how he is in the class room making different activities, discipline, time sense, personal hygem, etc.

I also observed the relationship between teacher and student in the classroom in respect of many issues like how the teacher teaching the subject what is his methodology what time of TLM is used for the teacher. I also the observed the student participations, respons to the teacher teaching.

objectives:-

- * The teacher should be a guide and good personality
- * The teacher should be a disciplined person so that students will responded.
- * The teacher has observed the feelings, expressions, and emotions of the students.
- * The Interaction between the teacher and student will lead to success.
- * The teacher can control the students and also know about the teacher interest attitudes and ambitions.

observation the teachers performance in five periods:-

Teacher name : Anuradha

class : 8th class

subject : English

particulars in observation of the teacher for five days:-

I observed for 5 days about the teaching of Smt. K. Anuradha how is working as English teacher in ST. Theresa's high school Ongole.

Role of the teacher in classroom mangement:-

The teacher maintaing the classroom exacently here performance is very good.

Deciplane:-

The teacher here self a deciplane person and encouraging self deciplane among a student. I also observed here a dedicated person.

time sense:-

Anuradha madam is a good time sense she is maintaing punchuvality in coming to the school and classroom she offenly explain the student regarding time sense.

Personal matters:-

I also observed here closely in personal matters she talking personal care in the student also if the students have know material like Notes, pens, etc she personal perchase and handover

to for students. I also observed in these days when some students came to the school without having any problems the teacher should be help in the students.

Relationship with students:-

she loves the students like here own children the student also move, freely and closely the student here teacher has a friendly nature to the student.

performance of the teacher:-

In teaching except, she is a very good teacher here teaching is interacting she will explain the lesson in simple and can easily understand the student she is model teacher to the other teacher.

TLM presentation:-

Anuradha madam teaches the lesson using relevant TLM for easily understanding madam prepares a TLM is a excellent she explain lesson and use TLM is perfectly.

questioning:-

she encouraging the students in question making and questioning in the subject matter and other general knowledge questions.

Answering:-

The teacher is perfectly on the subject The teacher has a friendly nature to the student

don't fear children you are correct or not to tell answer after I can correct to the answer.

Revue:-

The conclusion of the period, the madam Revue what she told in the period once again.

Strengthening:-

The teacher explain the lesson to not understanding the children once explain on other time to repet the subject mater.

How is a teacher in time of Revue and strengthening

Anuradha madam for the time of revue and strengthening the topics to the daller, she is very much patiently in the any time tollerence towards the student.

Disquest:-

she does not disquest when the peoples asking several quares questions and giving answer patiently.

understanding:-

she will acts according the student fellings, interest and attitudes. should be understand to the teacher.

learning:-

- * I learnt how the teacher maintaining the classroom.
- * I also learnt the excellent answering of the teacher for the students question and answer.
- * I came to know seeing the madam in discipline so that the students know about the discipline.
- * I came to know that the teacher has to maintain with the students.
- * The teacher using the teaching aims in teaching so that student can learnt effectively and understanding.
- * The teacher should answer the questions doubts express why the people correctly and understandingly.
- * I came to know that a teacher not only in teaching but also for individuals matter should be good.

conclusion:-

I am the student of Andhra Pradesh college observed the consult teacher for 5 days in several matters like class room management, teaching performance, using of TLMs, in questioning, review and strengthening etc.

6

I observed smt. k. Anuradha madam english teacher ST. there's high school in ongole. In several respects she is maintaining effectively here classroom. She is explaining the subject using TLM she herself a discipline person and maintaining the classroom in discipline manner he is answering patiently and questions and doubts of the students. Lastly I observed the madam in the above mentioned respects she is a good and perfect teacher of a subject.

Activity-2

7

2. Identify a problem for action research and prepare a proposal for action research

Introduction:-

A teacher for his performance in teaching may be identify the problems of the students and think remedial steps for better understanding and administration also maintain action plan for his better administration.

for example in the class 8th a problem was identified that there is not sufficient light and air flow in the room so that the students are unwilling to study or learn the teaching of teacher properly.

Definitions:-

"A research made by an individual for effective and efficient result to a problem is called action research programme" → Stephan K. Korro

"A systematic offer in implementing effective methods and procedures for problems in administration, teaching & learning process is called problem solving or action Research plan" → D. Bhaskar Rao.

Objectives:-

1. Identify one problem and known solution
2. study and Research the problems & identifying the solution in an educational institution for effective functioning.
3. solving the problems happening frequently and making better solution.
4. A systematic in developing educational policy for effective

5. Facilitate problem solving of who identify the problem.
6. A research without human physical, phenomenal resources.

7. Act according to the problem solving.

prepare a report of action taking for a identified problem

I identified a problem in class 8th that is lacking of air and light. For that I submitting a following report in this record.

Identifying the problem:-

This is the first and foremost issues in research in the process. so we have to talking to concentration the importance and priority of the problem for better educational result.

Defining the problem:-

After identifying the problem we have to research some points like, where is the problem, what is the problem, how to be solved these are imperative in problem solving.

Analysing the reasons for the problem:-

findout the reasons for the problem from the teachers students, specialist and the head master then findout the solution.

protect works:- [problem solving]

The problem was identified what is the problem the class has windows but there is no open place so air and light is not coming then we have to make steps regarding the problem solving

Implementing and strategy:-

9

Firstly how, why, where the research to be taken afterwords the research will be proved then only we can effectively implement the strategy.

policy of paper preparation:-

An administrated or a teacher can utilised a result of reasearch in his day to day affers Generally if a problem occures teacher discuss the others or him for solutions.

Learning out come:-

1. Firstly I identify the problem, defining, enalysed and find solution.
2. I also came to know how much the student facing the problem in the class room.
3. The students can improve there learning after problem solving.
4. The Researcher should be efficient.
5. so that the problem can be effectively solved.
6. An innovation actitude will be create to the Researcher.

conclusion:-

I am the student of ~~Andh~~ ~~Salasasi~~ college I went to ST there's ongole for action research plan for a identified problem that is in class 8th there is no air and light.

Firstly I identify the problem next find out the resons and anylising them after words

strategy and policy making and lastly find out the solution

lastly I submitted a detailed action taking report to be emPLICATE.

Activity-3

Activity-3: Collection of articles from newspapers relating to classroom management problems.

Dealing with Classroom Management Problems

Saul Axelrod explains how Applied Behavior Analysis (ABA) and positive reinforcement can help teachers successfully manage their classrooms

THERE IS PROBABLY NO ISSUE MORE pressing for teachers than dealing with classroom management problems. Teachers wake up obsessing over a student's behavior or even leave education. Here is what is so sad about this. It is unnecessary. For approximately 50 years, there have been available to teachers Applied Behavior Analysis (ABA) interventions that can solve most classroom management problems in a quick and humane manner.

ABA is derived from the basic principles of behavior outlined by famed psychologist B.F. Skinner about three quarters of a century ago. Thousands of journal articles and books have demonstrated that ABA can be used to solve some of the most difficult behavioral problems. Yet, for reasons I have discussed in other articles, ABA is regularly used in special education, but seldom used in regular education. This is unfortunate. If ABA procedures were used more often in regular education, inclusion of children with disabilities would be more of a reality in regular education, and teachers' lives would be much happier.

THE HINDU

Most of our classrooms are teacher-centred, with one-way communication from the teacher to pupils. Here is what one needs to do change it. He who can, does. He who cannot, teaches." This quote is a jibe from George Bernard Shaw, given by him under the title 'Maxims for Revolutionists' in his renowned play 'Man and Superman' (1903). At best, it is a censure on ineffective teachers. It is not a universal truth. Teaching is a noble profession that moulds the emerging generations.

"The mediocre teacher tells. The good teacher explains. The superior teacher demonstrates. The great teacher inspires", said William Arthur Ward, scholar, author, and teacher.

Government Schools In Hyderabad: Facilities And Conditions

By RimTim Staff Writer November 3, 2016

There have been surveys done by two private organisations recently, the Pearson's Voice of Teachers (VOT) Survey and Education World, and they found that the students in Hyderabad do better at studies than those from other parts of the country.

Government schools in Hyderabad

- Prime Minister Narendra Modi has often emphasized the importance of having toilets in schools for girl children, and one of the biggest problems with government schools relates to the high dropout rates among girls because of the absence of toilets within the school premises.
- Government schools in Hyderabad, and in the rest of the country are considered unattractive by most parents because of the lack of basic amenities, whether it's drinking water or proper toilets.
- In many government schools, there is no running water. For example, the water connection at the Government High School, Golconda, was disconnected by the Water Board for non-payment of bills. Many government schools depend on wells or bore wells for water.

No students? No toilets in schools in Andhra Pradesh, Telangana

DC | AMAR TEJASWI Published Feb 18, 2015, 1:27 pm IST

HRD Ministry has now deleted more than 1,400 govt schools in Andhra Pradesh

Hyderabad: After corporates pledged to build toilets in government schools, the Union HRD ministry has been forced to remove several hundreds of schools in Andhra Pradesh and Telangana state from the list due to lack of student enrollment. No one seems to know the number of toilets actually required in schools in the two states and the HRD ministry sources blame the two state governments for the confusion.

Last year, public sector undertakings like Power Finance Corporation and National Thermal Power Corporation had pledged to build toilets in the schools listed by the two state governments and other states in the country.

Andhra Pradesh **How mid-day meals go up in smoke**

K. Umashanker

CHITTOOR: December 16, 2014 00:03 IST

The tall claim of the government of successful implementation of the mid-day meal schemes in schools appears frivolous in the district as the supplies of provisions are given a short shrift. Despite twelve LPG cylinders per annum are being provided to each school, over 80 per cent of the government schools in the district depend on firewood for cooking, resulting in respiratory problems among students owing to the impact of smoke and soot. Pusha, who cooks for half a dozen of schools

Mid Day Meal Has 24 Lakh Cooks But Still Falls Short April 16, 2012

Way back in 1925 Madras Municipal Corporation started the concept of offering meals for disadvantaged children. Offering food was seen as an incentive to encourage school participation especially from children of poor parents.

Today, that concept has grown into a major project positioning India as the world's largest school feeding programme via its Mid Day Meal Scheme. One of the rationales for this programme – to stem school dropouts – appears to have been achieved as data shows. This week IndiaSpend's Souriya Bhowmick takes a look at the performance of the Mid Day Meal Scheme against the budgetary allocations that it gets. The school feeding programme has its share of problems and criticisms but data does indicate an impressive performance at a macro level. Yet, a number of issues remain as stumbling blocks.

THE HINDU

Schools in grave danger Rohit Dhankar

October 28, 2014 01:24 IST

With public schools not performing and private schools teaching students to compete rather than learn, India's primary sites of education are at risk. The problem with the private school system can be illustrated with an example. Recently, a parent described to me what teachers in his son's school said to him regarding the child's poor performance in studies. Science, social science and English teachers in the school asked him, the father, to solve the problem! Are "incomplete work or misbehaviour... during school hours... not the responsibility of the teachers to handle?" the perplexed man wondered. "If my son misbehaves in [the] house or does not read or write what we tell him to, we as parents handle it. We do not take it up with the teacher. Why [do] teachers nowadays take up everything with the child's parents," he asks. He opines that the "teacher has to be responsible for reading and writing and the parent has to be the facilitator by buying books, pens and pencils."

The latest 'Annual Status of Education Report' shows that learning outcomes are abysmal in Indian schools. Gaur/Mint Schools are supposed to be the temples of learning, but the average primary educational institution in India is likely to be a dingy, dilapidated place without access to electricity, toilets and with too few teachers. True, just having great school infrastructure is not sufficient to improve learning outcomes, but it is certainly a necessary condition.

Andhra Pradesh

'Andhra Pradesh lags behind in drinking water, sanitation'

M. Rajeev HYDERABAD: September 22, 2015 00:00 IST

UNICEF and CESS report pours cold water on State's claims. It suggested that service provision be unbundled in terms of bulk water production.

The statistics, presented in the report on 'Constituency-wise Analysis of Drinking Water and Sanitation Conditions in Andhra Pradesh' prepared jointly by the Division of Child Studies of UNICEF and the Centre for Economic and Social Studies come at a time when the World Bank has estimated that countries like India and Bangladesh are losing close to 6 per cent of their gross domestic product owing to inadequate sanitation. Andhra Pradesh has not made much progress in providing drinking water and total sanitation facilities, particularly in rural areas, the report said, stressing the need for ensuring access to piped water supply to all rural households with a metered tap connection to provide safe drinking water throughout the year.

Supreme Court seeks toilet plan for schools in AP, Telangana

Apex court takes state govts to task for dismal state of toilets, summons secretaries of school education departments - **Shreeja Sen**

After studying reports submitted by a three-member panel that inspected the status of the facilities, the court deplored the inaction shown by the two state governments. **New Delhi:** Calling for clean and safe toilets in schools, an exasperated Supreme Court on Tuesday ordered the governments of Andhra Pradesh and Telangana to submit reports regarding the state of toilets in their schools.

"The states of Andhra Pradesh and Telangana...cannot have innovative ideas to construct a structure, christen it as a toilet and thereafter forget it from their memory," said a bench of justices **Dipak Misra** and **P.C. Pant**. The three-member panel had expressed dissatisfaction over the condition of the toilets in schools and told the court that they needed "continuous maintenance", which the court accepted.

Students protest against poor condition of government school

M.T. Shiva Kumar

Mandya: January 29, 2016 00:00 IST

The condition of about two-decades-old school building is pathetic, even as some portions of it collapsed, recently. Along with their parents and some local people, the students locked the classrooms before staging a protest outside the institution.

Students of Government Lower Primary School at Chikkonahalli, a village in K.R. Pet taluk of Mandya district, staged a demonstration on Thursday in protest against poor infrastructure.

Residents of the village said that they had been requesting the authorities concerned to get the dilapidated portions of the building repaired. The school was also lacking basic amenities and the students could not sit in the classrooms and concentrate on the lessons.

THE HANS INDIA

Messy Kitchens Hit Mid Day Meal Scheme In VMC Schools

THE HANS INDIA | Sep 11, 2015 , 12:00 AM IST

A kitchen with damp walls, dripping ceiling and garbage strewn around is a common sight in majority of the Vijayawada Municipal Corporation (VMC) schools where mid-day meal is prepared for students. It is a known fact that the students are at risk due to consumption of food prepared in highly unhygienic conditions.

The upkeep of school premises where students have their lunch is also poor complicating things further. Mayor Koneru Sridhar, who is on a mission to set right things in the VMC schools, has so far inspected 25 schools out of the total 105.

Most of the schools do not have proper kitchen sheds for preparation of mid-day meal by DWCRA women. The supply of LPG is also not regular. Some schools do not have basic amenities like drinking water supply and toilets.

No roads, no educational, medical facilities...

Survey throws up revelations about 18 tribal villages in Thaili, Kelamangalam panchayat unions

By Aravamudan

KELAMANGALAM: Over 20 tribal villages out of 28 situated on the hills and in the interior of Thaili, Kelamangalam panchayat unions are deprived of proper approach roads, medical facilities, electricity and other basic amenities. A survey conducted by the Child Rights and Development Society...

The survey was conducted by the Child Rights and Development Society, a non-governmental organisation based in Chennai.

On the basis of the survey, the society has submitted a report to the Government of Tamil Nadu, requesting the Government to take steps to improve the basic amenities in these villages.

The survey also revealed that the majority of the tribal population in these villages are engaged in agriculture and animal husbandry.

The society is planning to conduct further surveys in other tribal areas of the region to assess the needs of the tribal population.

The survey was conducted by a team of experts from the Child Rights and Development Society, who spent several weeks in the field.

The survey also revealed that the majority of the tribal population in these villages are engaged in agriculture and animal husbandry.

Over 3,000 children not in school

Lack of interest, need to be additional wage-earner among the reasons: survey

Alakhya Kataria Toper

CHENNAI: A total of 6,282 children in the age group of 6 to 16 years in Chennai District have been found to be out of school, according to a recent study done by Sarva Shiksha Abhiyan (SSA) wing of the School Education Department. While children constitute a major chunk of that number with 2,046 of them out of school.

A total of 1.16 million children in the city were covered in the survey.

While a majority of children, as many as 1,041, pointed to lack of interest in going to school as reason for dropping out, 264 children in the city said they dropped out of school because of difficulty in learning.

Some of the other reasons cited include child labour, lack of guidance and awareness, sibling care, natural calamity and the need to be an additional earning member of the family.

The category of out of school children includes dropouts and children from migrant families, here in search of jobs. The mother tongue of 3,607 children in Tamil. A total of 113 children speak Urdu and 110 have regional as their mother tongue.

With regard to dropouts, at least 2,298 of the children have dropped out of school in the city.

This included 1,066 students of Government Schools. As many as 422 children, the highest in any age group, have dropped out at the age of 12.

A total of 114 children, the highest in a class, have dropped out while they were in Class III.

Some children drop out soon after joining school, the study has observed. As many as 167 children were found to have dropped out in class I.

As many as 2,272 of the children out of school belong to Scheduled Caste, 993 backward Caste, 468 Most Backward Caste and 215 Scheduled Tribes.

Areas such as Porur, Triplicane, George Town and Kammur had relatively higher concentration of dropouts, said an official of SSA.

Specific training centres would be set up shortly to help the children join the school next year, said the official.

Child labour is among the reasons cited by school dropouts in Chennai. FILE PHOTO.

Bonded labour: 93 kids rescued

They Were Working In Smokey, Cramped Jewellery Units In Karol Bagh

TIMES NEWS NETWORK

New Delhi: Ninety-three child labourers, 37 of whom are aged below 14 years, were rescued from Beadonpura area of Karol Bagh on Saturday. They were forced to work as bonded labourers in inhumane conditions in gold and silver jewellery units. All the children are from West Bengal.

The children were rescued after a three-hour-long raid carried out by the labour department of Delhi government in association with NCO Bhagyan Bhatia Andolan.

When the team reached the spot, it found many children working in small rooms in cramped conditions, the air thick with the fumes of

CAPITAL SHAME: These kids toiled all day, got only food in return.

burning metal and no ventilation. "The staircases that led to these rooms were hardly two feet in width," said an official who had been a part

of the team.

Deputy labour commissioner V S Arora said: "They were being made to work all day in such horrible condi-

tions and not even paid because they were supposed to be trainees. They just got food in return."

The children were made to live, work and sleep in the same room and the door was kept locked at all hours to prevent them from escaping. Owners of all the 26-25 establishments that were searched had fled the place by then.

The labour department will now send the details of the rescued children to the West Bengal government, where their addresses will be verified and a team of officers will reach Delhi in a few days to take them home. Till

then, the children have been handed over to the NGO, said joint labour commissioner Piyush Kumar.

"We send the details to the concerned state and then the state takes care of their being sent back home and rehabilitation," he added.

Soon after the children were brought to Karol Bagh police station, a mob of 300-350 people gathered the building for close to two hours, raising slogans against the Delhi police and alleging that the labour department had "patronised" the NGO to get mileage out of it.

Activity : Collection of Cases of Indiscipline and Corporal Punishment from news papers.

Say NO to physical reprimands

Corporal punishments tend to reduce the IQ of your child explains head mistress of Espalier Experimental School Saba Khan

One of the most common issues encountered these days among the young generation is answering back, misbehaving, disobeying and throwing tantrums on petty things which force parents to lose control.

The common reason for kids to behave in such a way is stressful life and estranged environment of home causing increase in negativity but the most frequent reason for parents, especially mothers, to adopt physical punishment methods stems from acute domestic harassment and neglect.

Whatever the reason for physical punishments to your junior, remember that you have nothing in this world more precious than your child.

It is scientifically proven that in early childhood brain forms and reforms many complex networks and connections of brain nerve cells that are called neurones. It is said that more the number of neurones that connect to each other, higher is the individual's intelligence level. This neo-cortex of brain deals with the learning process.

As parents and teachers, it is our prime job to provide valuable experiences and positive environment to children which helps in

the development of brain neurones that will hone your child's intelligence.

The moment we punish physically a child feels insulted. His self esteem goes down. This ruptures the connection of brain cells in the neo-cortex which causes inability in learning.

The mechanism of brain shifts to replica brain which activates defence mechanism. It increases awareness which creates trouble in learning, leads to vulnerability, depression typically in girls and anti social tendencies which manifest in boys. Physical punishment reduces the grey matter of the brain (it is the connective tissue between brain cells). It is an integral part of the nervous system and influences intelligence testing and learning abilities.

Physical punishments also inflict lasting emotional damage, undermine trust between parents and child and breeds hostility towards authority. The cognitive development of your kid is in your hands so make the best use of it.

8-yr-old tortured, treated like a dog

Police Slap Case Against DLF Phase-I House Owner, NGO Hands Boy Over To His Mother

Aditya Bera / TNN

Gurgaon: An 8-year-old boy was rescued from the clutches of trader by a city-based NGO from a bungalow in DLF Phase I with the help of police on Wednesday. The child was allegedly kept as bonded labourer and was being subjected to physical torture and sexual abuse by the owners of the bungalow.

When rescued, Usman (name changed) had injury marks and scars on his body, including his face. His hands were also swollen due to washing utensils in cold water.

After an immediate medical test, the police produced Usman in district child welfare officer and the labour officer while the labour officer registered a case under the Child Labour (Prohibition and Regulation) Act, but the police were not ready to lodge an FIR in the beginning.

It was only after the slapping case was picked by media, a police case was registered late in the evening.

The police registered one under sections 38 (punishment for cruelty to juvenile or child), 36 (exploitation of juvenile or child, employee of Juvenile Justice Act and 37 (unlawful compulsory labour) of IPC.

Deputy commissioner R.K. Kataria, who is a member of child welfare committee in Gurgaon, stressed strict and timely action. The police are duty bound to register a case

When rescued, Usman (name changed) had injury marks and scars on his body, including his face. His hands were also swollen due to washing utensils in cold water.

Usman said that often the house owner would grope his dog to bite him. The child was rescued from the house of one Khwairazma Begum, a textile trader, who lives in E-5/13 in DLF phase I. He said the child was never hit, but when asked, he couldn't explain the injuries.

In this regard, I will instruct the concerned officials to conduct proper investigation," he said.

Earlier, when TNN team visited the police station in the afternoon, Usman appeared scared and kept crying. When our reporter tried to take the child into confidence, he said that house owner used to beat him every now and then. Usman said that often the house owner would provoke his dog to bite him.

The NGO Shakti Vahan, which runs childline (children helpline number 1098) in Gurgaon, had received a complaint in this regard late on Tuesday night.

A member of the NGO said, "We approached the DLF Phase I police station on Wednesday and with their help rescued the child."

The child was rescued from the house of one Khwairazma Begum, a textile trader, who lives in E-5/13 in DLF phase I. He said the child was never hit, but when asked, he couldn't explain the injuries.

Gurgaon claimed that child was kept as house labour by his mother Noorjahan. His statement was refuted by Noorjahan, who later appeared at the district child welfare office. The child was handed over to her after the police and labour officer recorded her statement. Noorjahan said that she paid the money, she also agreed to let him go to work.

DOES CORPORAL PUNISHMENT IMPROVE ACADEMIC LEARNING?

- * Would we accept policemen having the right to strike us, even lightly, when we commit a traffic violation? The driving mistakes we make are certainly a lot more serious than children's follies! It is perfectly immoral and illogical to inflict on our children that which we rightly refuse to suffer ourselves.
- * This is exactly the situation which adults are now placing children in. Besides, the majority of people who were hit as children have for the most part forgotten what the blows were intended to teach them.

3) Corporal Punishment

Article 233 of the Family Code provides that--

"In no case shall the school administrators, teacher or individual engaged in child care and exercising special parental authority, inflict corporal punishment upon the child."

Corporal route to discipline students

By Rittika Chopra in New Delhi

TILL A decade ago, yelling, intimidation and beating up a student were among the accepted forms of enforcing discipline in the classroom. Sadly, things are not much different even today.

Despite a strong Supreme Court judgment and Parliament passing an Act banning corporal punishment, a majority of the schools in the country continue to resort to this practice quite openly, a study conducted by Childline India Foundation has revealed.

Almost 95 per cent of the 198 schools — 128 government and 70 private institutions — surveyed across 11 states were found to have been resorting to corporal punishment in some form or the other — the most prevalent being detention, humiliation, beating and threat.

"Corporal punishment is so internalised in our country that students don't even identify it as a problem. It's part of school life. Being beaten up for speaking in the local language and not English is not considered out of place," Kajo Menon, executive director of Childline India Foundation, observed.

The private schools are no better than their counterparts run by the state. In certain cases, they are worse. So, while 6 per cent of the government

schools are free of corporal punishment, in case of private schools, this figure stands at an embarrassing 4 per cent.

The findings, which are part of a larger study on child safety conducted between 2009 and 2011, covers the states of Uttar Pradesh, Andhra Pradesh, Bihar, Manipur, West Bengal, Rajasthan, Kerala, Madhya Pradesh, Maharashtra, Delhi

and Goa.

Corporal punishment was first banned in the country through a Supreme Court ruling in 2000. This ban has been incorporated in the Right to Education Act as well. Now, according to the new guidelines issued by the ministry of women and child development, this practice has also been made a punishable offence.

PRIVATE NO BETTER THAN GOVT SCHOOLS

	Govt schools	Private schools
SPARE THE ROD	6%	4%
BEATEN	33%	33%

■ Schools surveyed across 11 states

■ Other punishments include being locked up in toilets or campus cleaning

PICTURE FOR REPRESENTATION ONLY

A first-time violation will invite up to one year in jail or a fine of 50,000 or both. For subsequent violations, imprisonment could be extended to 3 years with an additional fine of 25,000. School principals have been made responsible to prevent corporal punishment. Teachers found guilty could be denied promotion and even increments.

Over 3,000 children not in school

Lack of interest, need to be additional wage-earner among the reasons: survey

By Anand K. Venkatesh

CHENNAI A total of 3,292 children in the age group of 6 to 10 years in Chennai District have been found to be out of school, according to a recent study done by Sarva Shiksha Abhiyan (SSA) wing of the School Education Department. Male children constitute a major chunk of that number with 2,244 of them out of school.

A total of 100 habitations in the city were covered in the survey.

While a majority of the children as many as 1,921, pointed to lack of interest in going to school as reason for dropping out, 381 children in the city said they dropped out of school because of financial hardship.

Some of the other reasons cited include child labour, lack of guidance and awareness, sibling care, parental ill health and the need to be an additional earning member of the family.

The category of out of school children includes dropouts and children from migrant families here in search of jobs. The mother tongue of 1,037 children is Tamil. A total of 115 children speak Urdu and 100 have Telugu as their mother tongue.

With regard to dropouts, at least 2,500 of the children have dropped out of school in the city.

This includes 1,050 students of Chennai Schools. Among the 172 children, the highest in each group have dropped out at the age of 12.

A total of 419 children, the highest in a class, have dropped out while they were in Class III.

Some children drop out soon after joining school, the study has observed. As many as 367 children were found to have dropped out in class I.

As many as 2,292 of the children out of school belong to scheduled caste, 593 backward caste, 206 Most Backward Caste and 22 Scheduled Tribe.

Areas such as Perambur, Tamburam, George Town and Egmore had relatively higher concentration of dropouts, said an official of SSA.

Special training centres would be set up shortly to train the children from the school next year, said the official.

Child labour is among the reasons cited by school dropouts in Chennai. FILE PHOTO

Bonded labour: 93 kids rescued

They Were Working In Smokey, Cramped Jewellery Units In Karol Bagh

THE NEWS NETWORK

New Delhi: Ninety-three child labourers, 57 of whom are aged below 14 years, were rescued from Bandoopara area of Karol Bagh on Saturday. They were forced to work as bonded labourers in inhuman conditions in gold and silver jewellery units. All the children are from West Bengal.

The children were rescued after a three-hour-long raid carried out by the labour department of Delhi government in association with NGO Bachpan Bachao Andolan.

When the team reached the spot, it found many children working in small rooms in cramped conditions, the air thick with the fumes of

CAPITAL SHAME: These kids toiled all day, got only food in return

burning metal and no ventilation. "The staircases that led to these rooms were hardly two feet in width," said an official who had been part

of the team.

Deputy labour commissioner V S Arora said: "They were being made to work all day in such inhuman condi-

tions and not even paid because they were supposed to be trainees. They just got food in return."

The children were made to live, work and sleep in the same room and the door was kept locked at all hours to prevent them from escaping. Owners of all the 20-35 establishments that were searched had fled the place by then.

The labour department will now send the details of the rescued children to the West Bengal government, where their addresses will be verified and a team of officers will reach Delhi in a few days to take them home. "Till

then, the children have been handed over to the NGO, said joint labour commissioner Piyush Kumar.

"We send the details to the concerned state and then the state takes care of their being sent back home and rehabilitation," he added.

Soon after the children were brought to Karol Bagh police station, a mob of 300-350 people phoned the building for close to two hours, raising slogans against the Delhi police and alleging that the labour department had "patronised" the NGO to get mileage out of it.

Barabanki (UP): In a shocking case of corporal punishment, a 10-year-old boy died after being allegedly beaten up by his principal on suspicion of stealing pencils, police said on Thursday.

The state is notorious for such incidents with some similar cases being reported barely a few months back.

Shiva Rawat, a Class-III student of Chaudhary Dwarika Prasad Academy at Rahilamau village in Baddupur area in the district - 35 km from Lucknow - was mercilessly beaten up by headmaster Lalit Kumar Verma on Tuesday, Superintendent of Police Abdul Hameed said.

Girl, 10 thrashed for speaking in Telugu at English-medium school

By A. Srinivasa Rao

Published: 21:07 BST, 9 March 2012 | Updated: 21:07 BST, 9 March 2012

Even as the National Commission for Protection of Child Rights (NCPCR) has come out with stringent guidelines to prevent corporal punishment in schools, teachers have not changed their ways.

The principal of an English-medium private school in Visakhapatnam was arrested on Thursday for allegedly caning a 10-year-old girl.

The police said M. Satyanarayana Murthy, principal of MSM Public School at Muralinagar, found Class IV student Singuri Pavani talking to her classmates in Telugu on Tuesday.

Pavani, 10, pictured with her father shows her bruised hand arm. He summoned her to his room and beat her mercilessly on the left hand with cane, causing deep welts at four or five places. He allegedly threatened to rusticate her if she told her parents about the punishment. Pavani told her parents about the incident the next day when they saw the bruises on her hand and enquired about the same.

Her parents, S. Poli Naidu and Sujatha, who work as masons, went to the school on Thursday morning and confronted the principal.

Class IV Student Suffers Ear Bleeding After Teacher Slaps Her in Bengal

An 8-year-old girl was allegedly slapped by her teacher for not writing her roll number correctly at a school at Dumdum in the northern fringes of Barasat (WB): An 8-year-old girl was allegedly slapped by her teacher for not writing her roll number correctly at a school at Dumdum in the northern fringes of Kolkata, police said on Friday.

P Malakar, a teacher at St Stephens school, slapped the girl, a class IV student, yesterday for writing the roll number incorrectly during an exam, following which she started bleeding from one of her ears, a police officer of Barrackpore Police Commissionerate said.

7-Year-Old Student Beaten With Belt For Not Completing Homework

Bengaluru: A seven-year-old girl in the city was beaten severely with a leather belt by her tuition teacher for not doing her homework, Bengaluru police said on Thursday.

The incident allegedly took place on Tuesday night and a case was registered against the teacher identified as Latha (40).

"A case under Juvenile Justice Act has been registered against the teacher by the victim's family members. She (teacher) is absconding and we are looking for her," police sources said.

The class two student has been attending private tuitions for the last one year at Latha's house which is close to her Subhash Nagar residence in Nelamangala town.

On Tuesday evening, she went to attend classes when Latha noticed that she didn't complete her homework.

Jaipur: Rajasthan boy hangs himself after teacher beats him up

Jaipur: A 16-year-old student of a state-run school in Rajasthan has committed suicide allegedly due to humiliation, harassment and beating by a teacher. The teacher was arrested, police said on Monday. The incident took place on Saturday in Rampuria village in Baran district, over 290 km from here. Dilkush Saharia, a Class 10 student of government secondary school in Bansthuni village, hanged himself, a police officer said. The officer said over phone from the district town, "We have arrested school teacher Mukut Bihari Sen on Sunday night and charged him with abetment of suicide." He will be presented before a local court on Monday, the officer said. Police said Saharia, in a suicide note, mentioned that he was taking this extreme step due to the harassment and beating by Sen.

Kerala school locks up UKG student in dog house, principal arrested Neethu Reghukumar

Thiruvananthapuram: In a shocking incident in Kerala, a school locked up a UKG student in a dog house for talking in the classroom. The incident happened last week and was reported by the child's elder sister. The school, Jawahar English Medium in Kodapanakunnu, has denied the allegations. The police, however, has taken the principal of the school into custody. The police said that the school was not recognised and was functioning under the open school category. Angry parents now demand that the school be shut down.

- * He knows all members attitudes.
- * Bala swami reddy is a person taking right decision in the right time.

Second teacher:-

L. padhma Latha:-

She is a teacher in ST. There's high school she is an expert in teaching the telugu subject she encourages the learning telugu language effectively

1. Creativity
2. Generally a language teacher has to be processed creative thinking our padhma latha madam

do we students and other staff members assistance
she feels that one should not go back in given task
in try & try again in reaching the goal confidence
is the first step for any substep.

Role modeling:-

padmalatha madam is role model to the student

other features:-

- * she is a good teacher to all other in many respects
- * Madam is a good personality and identify person
- * she knows all members attitudes
- * padma latha teacher is a person talking right
decision in the right time.

4. Third teacher:-

Theresamma:-

she is a social teacher in the school she is
excellent teacher in social studies she explains, the
Geography, history, economics civics, and also making
them perfect in identifying maps she also giving
more information general knowledge current affairs.

vision:-

A good leadership first and most teaching fore
site or vision the leader has to be keep in mind the
features then only she can lead her followers they
may be students or people towards to kept fore site
she has to explain the features goals and

attitudes to be reached her followers.

emotional feelings:-

our teacher is working with affections and good emotions towards collisions she loves the students and also the Respective to the other teachers it is the main leadership qualities.

she herself work for her institution and she also seeks her collisions attitudes same as she has emotional feelings.

self sacrifice:-

she sacrifice her personal interest for the institutional development she served for the institution more than in family and also think her collisions too

confidence:-

she has more confidence upon her staff member she thinks that any hard task can be done student and other staff members assistance she tells the one should not go back in given task try and try again in reaching the goal combined in the first step for any sub step

Role modeling:-

Therexamma is a role model to the students.

Other features:

* she is a good teacher to all in other many excepts.

* Madam is a good personality and identity person.

* she knows all members attitudes

* Theresamma is a person taking right decision in right time.

Fourth teacher:

B. Anandha rao:

He is an english teacher in the school. he have a good vocabulary and creativity.

Vision (Fore life):

He is a good person he has many experience in the subject his thinking is different. she prepares lesson very well and use TLM's.

Emotional feeling:

our sir working with effectio
he loves the students and also respects the

teachers it is the main leadership quality.
He motivate the students.

self sacrifice:

He sacrifice his personal interest
for the institution development ~~he~~ has a self
sacrifice person. he has good hard worker.

other beactures:

He speaks english very well. h
is a role model of students he has a good
personality.

Fifth teacher.

P. Ganaiahya:

He is a another social teacher
in the school. he dealing with 9th and 10th
only.

Vision (Fore site):

He has a good friendly nature
first and most teachingly in the subject.

Emotional beelings:

our sir is a working with
effections. he loves the student and teachers.

and collisions.

Self sacrifice:

He sacrifice his personal interest for the institutional development he served for the more then in families and also this his collision too.
